All my emotions seem to be a bit jumbled up at the moment. I really don't know if I'm happy or sad. I've just come to the end of a long association with a man, and I always have this same doubt as to whether I've done the right thing or not with short affairs, so this one has me really confused. And, what makes it worse is that if I do want

him back. I don't know if he'll agree.

'He was a truly beautiful man, and I mean that to relate to his personality as well as physically, so it won't be too difficult for him to find someone new.

'I'm a sucker for people like that, though. My friends are always on at me about it because I tend to give of myself completely in my relationships, doing anything for the happiness it brings my man.

'I don't think that's a bad thing, and I've never felt as though anyone was taking advantage of me.

'There was one guy who wanted me to get into a lesbian act with one of his other girls, for his benefit, but I wasn't interested. I might have been if I had felt strongly enough about him, but at the time he was just filling a space in my affections.

'As with the spiritual side of my love affairs, I like the sexual side to be tender also.

'To my mind, there is nothing which can compare with a long weekend alone together with my lover, never seeing anyone else, no TV, newspapers or whatever, just us, alone.

'On these occasions, it's beautiful to go around the house totally naked. It takes all the embarrassment away and leaves in its place total pleasure.

'It always makes me feel permanently aroused, and usually means plenty of loving sex. I can stand a lot of that.'♣

Just think, I got these shoes from a guy about six months ago while I was on holiday in Tunisia and I haven't wanted to take them off since.

'Know why? He was the best pussy eater I've ever come across, or over, for that matter.

'He had the most enormous tongue, and he always used to joke that his favourite meal was cunt in its own juices, except that

it wasn't really a joke.

'I remember one night when he covered me from head to foot in a lovely sweet-tasting oil, then proceeded to lick it off. It lasted about two hours, and I must have come about four times before he even started on my pussy.

'But when he did I was screaming in ecstasy, and I couldn't wait for him to fuck me; I almost bit his cock off.

'And what a cock! It was even better than his tongue.

'And that's saying something!'♣

Julie told us that her great passion in life at the moment is travel. Not the sort of thing we would have expected of such a delectable Miss but it just goes to show you can never tell.

'I've been to most of the usual touristy places, like France, Spain, Germany, and that sort of thing, but

what I'd really like to do is get a motor bike, a few spare pairs of jeans and T-shirts and hit the highways.

'I think Africa would be a blast to trail through. They all seem to conduct their lives half nude, so it must be some place.

'America is another place I've been to, but only the big apple, New York. There's a vast amount of unexplored land there too, surprisingly enough. I like that sort of challenge.

'The only trouble is that the men in America seem to be obsessed with cock-sucking.

'Not that I would regard myself as any sort of a prude: neither have I anything against sex in its proper place, it's just that I don't believe it's the be-all and end-all of our civilisation.

'That sounds a bit pompous I suppose, but I think a lot of people feel that way but don't like to voice their opinions in case others think they're cranks.' ♣

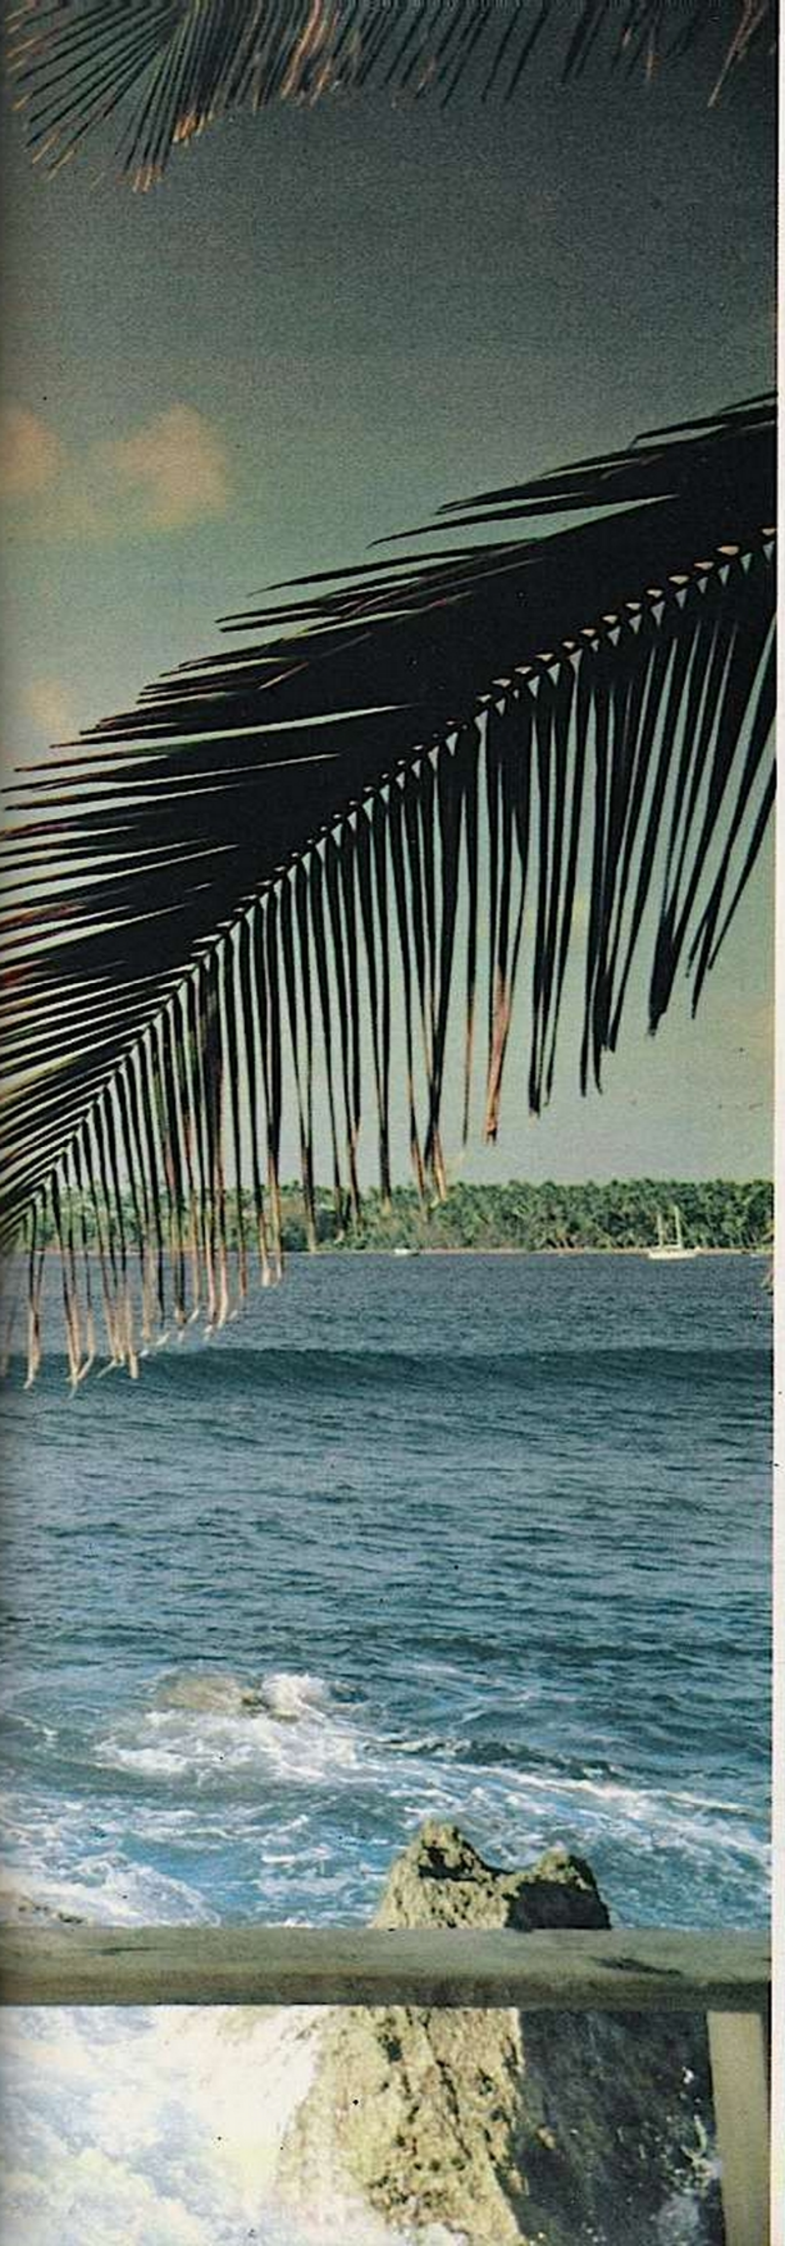
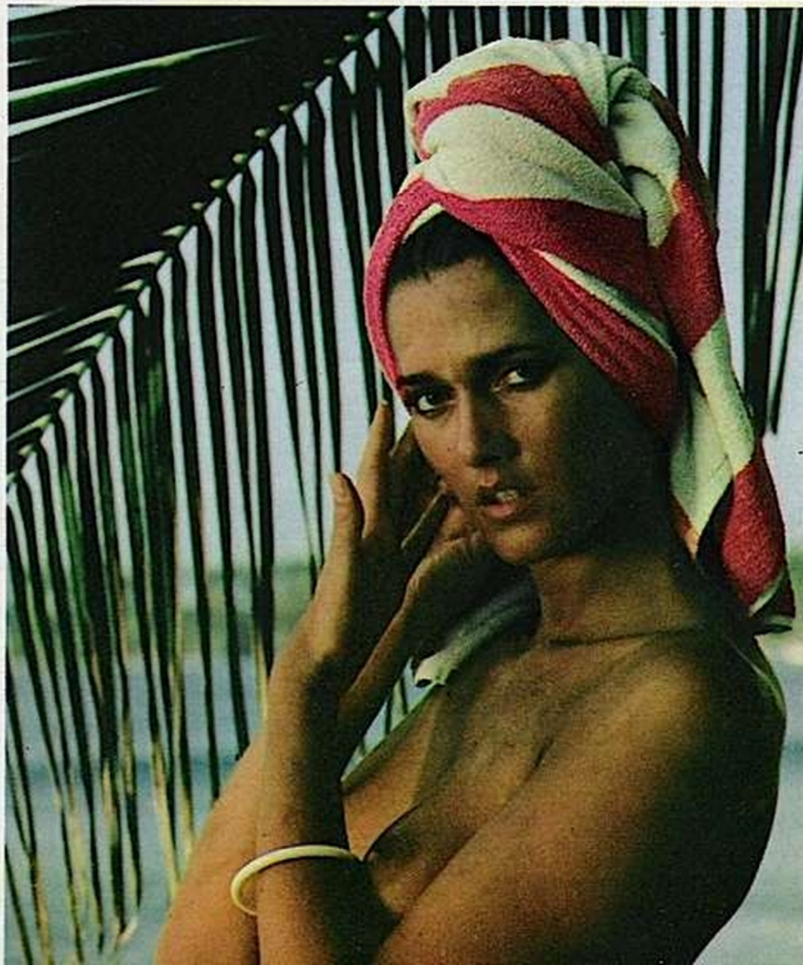
Mandy

Photographs by Mario Marnoto





Mandy gazed wistfully out over the breakers towards the cool blue expanse of the Mediterranean. Only minutes before she had splashed and giggled like a small child with the abandon which comes naturally from a beach setting. Now, with the sun drying the droplets of salt water on her shoulders, she was more subdued.

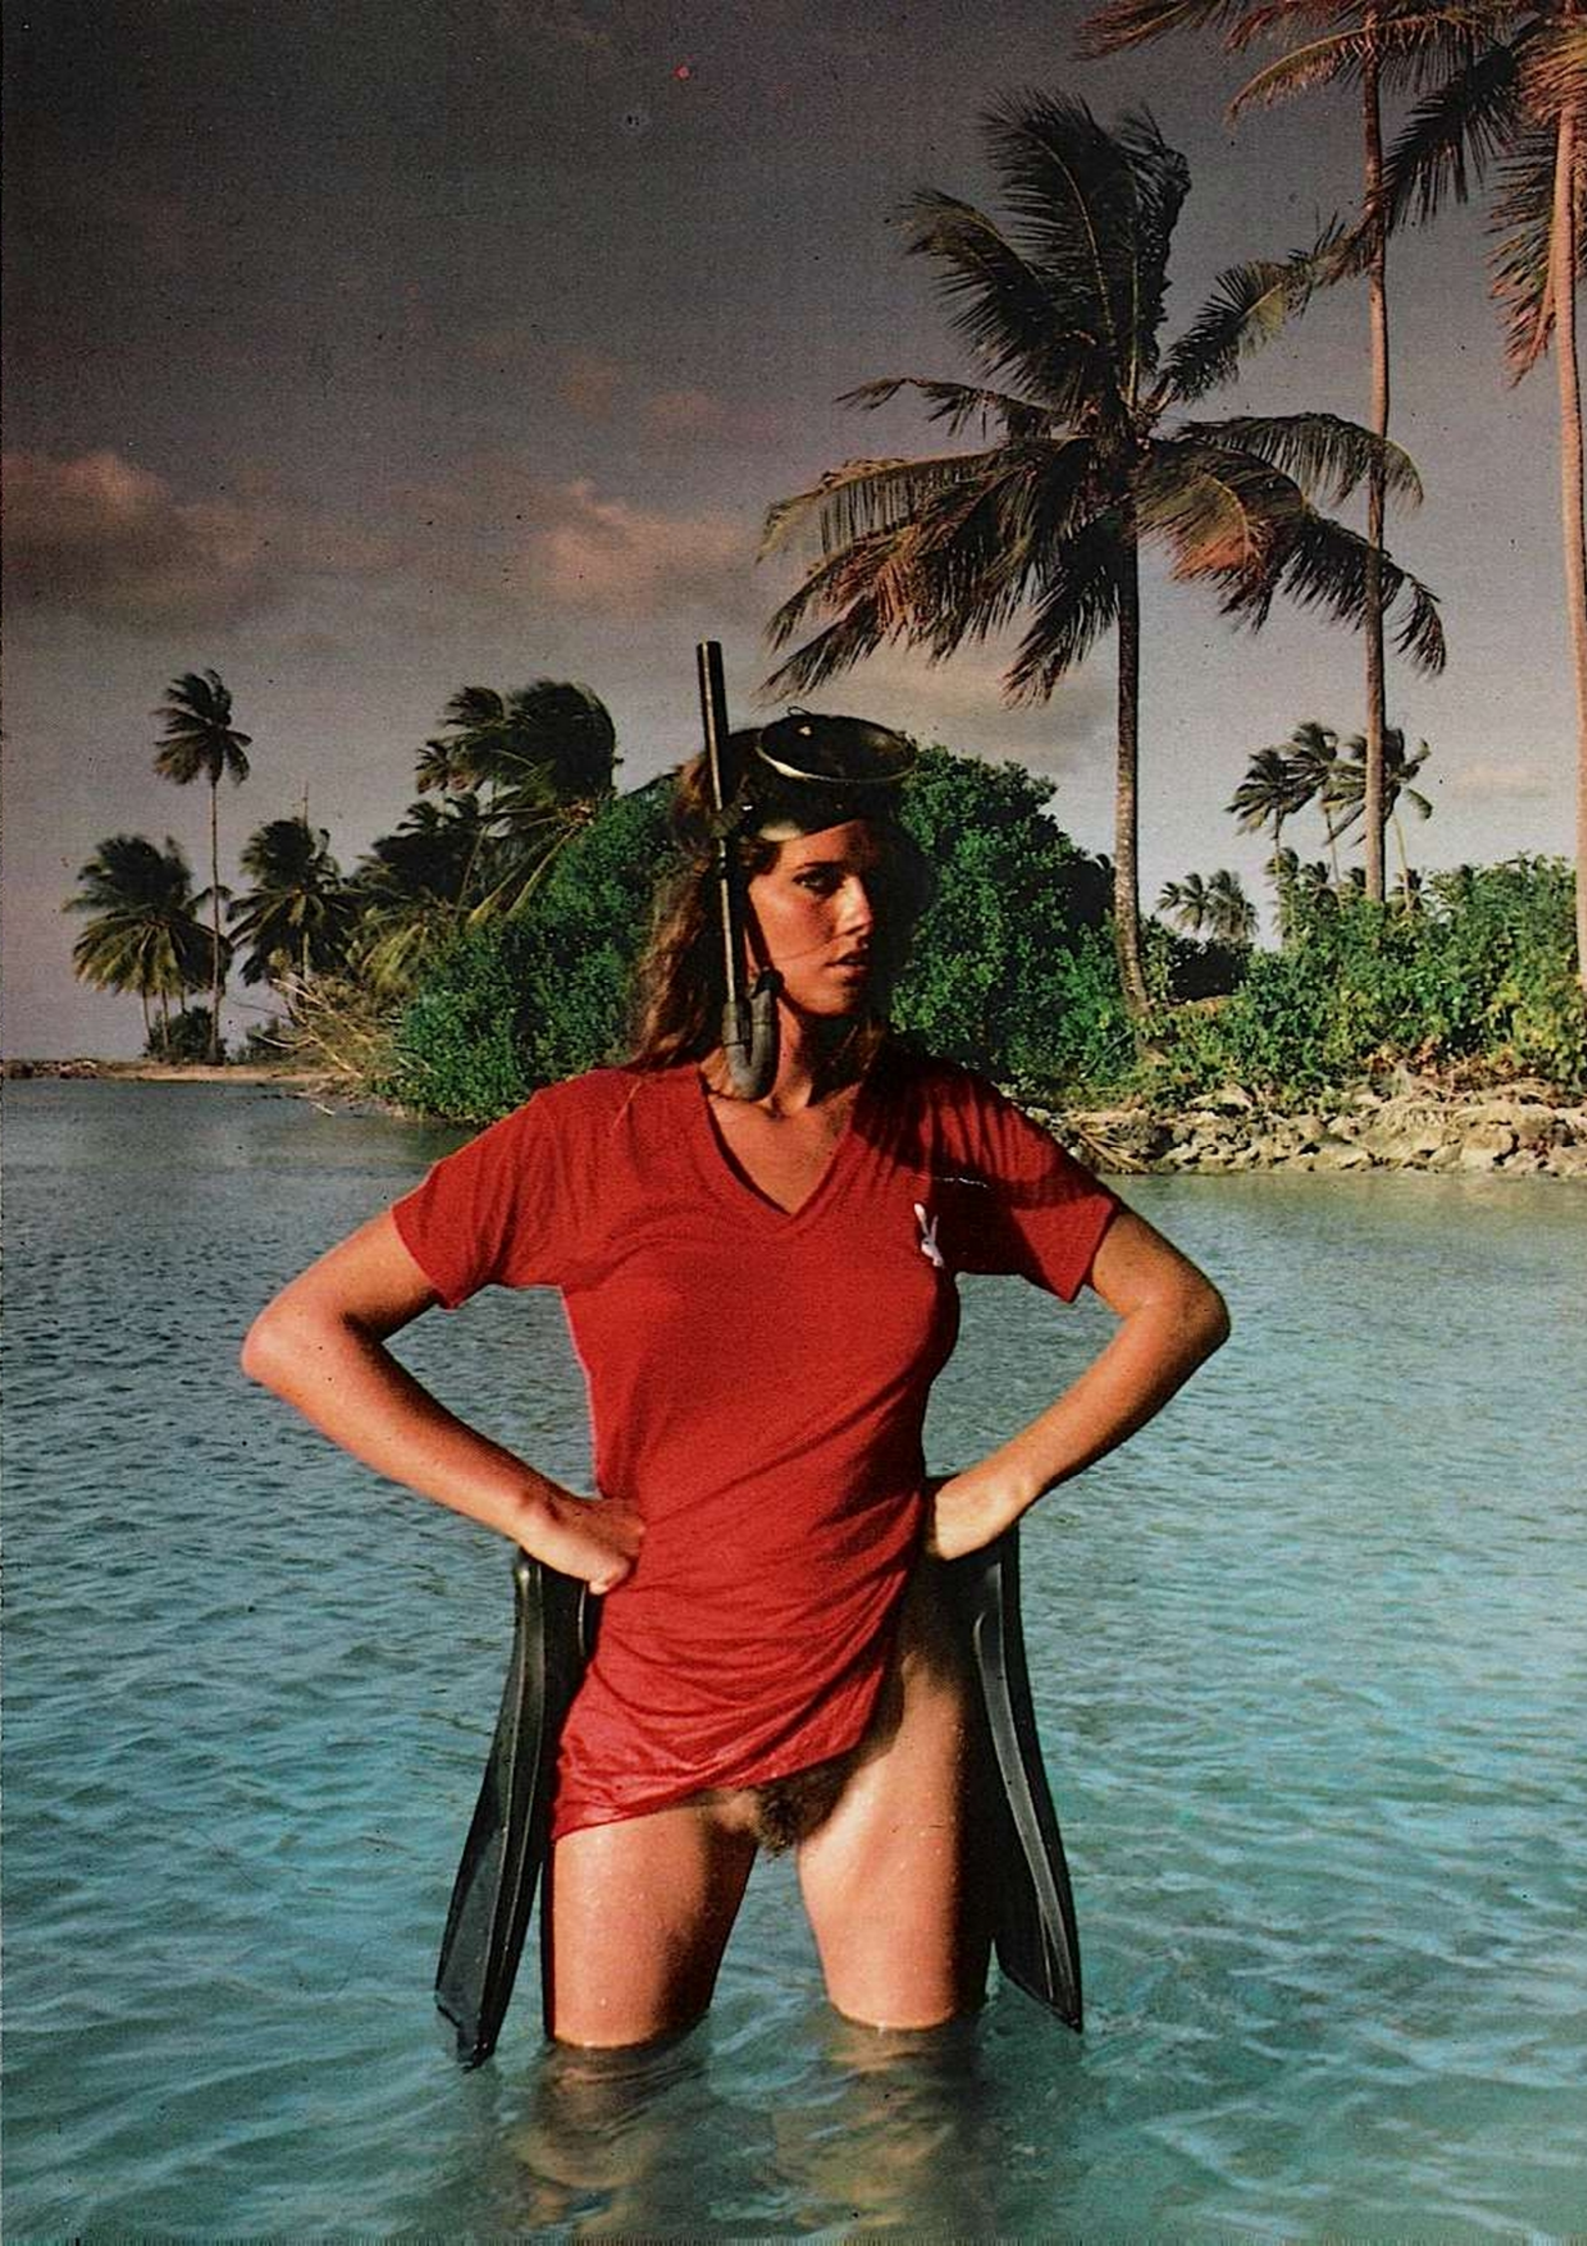
'I have always been fascinated by the sea,' she told us. 'When I was a little girl, we lived in the country, and it was only very rarely we got to the seaside. I can remember my first visit vividly.

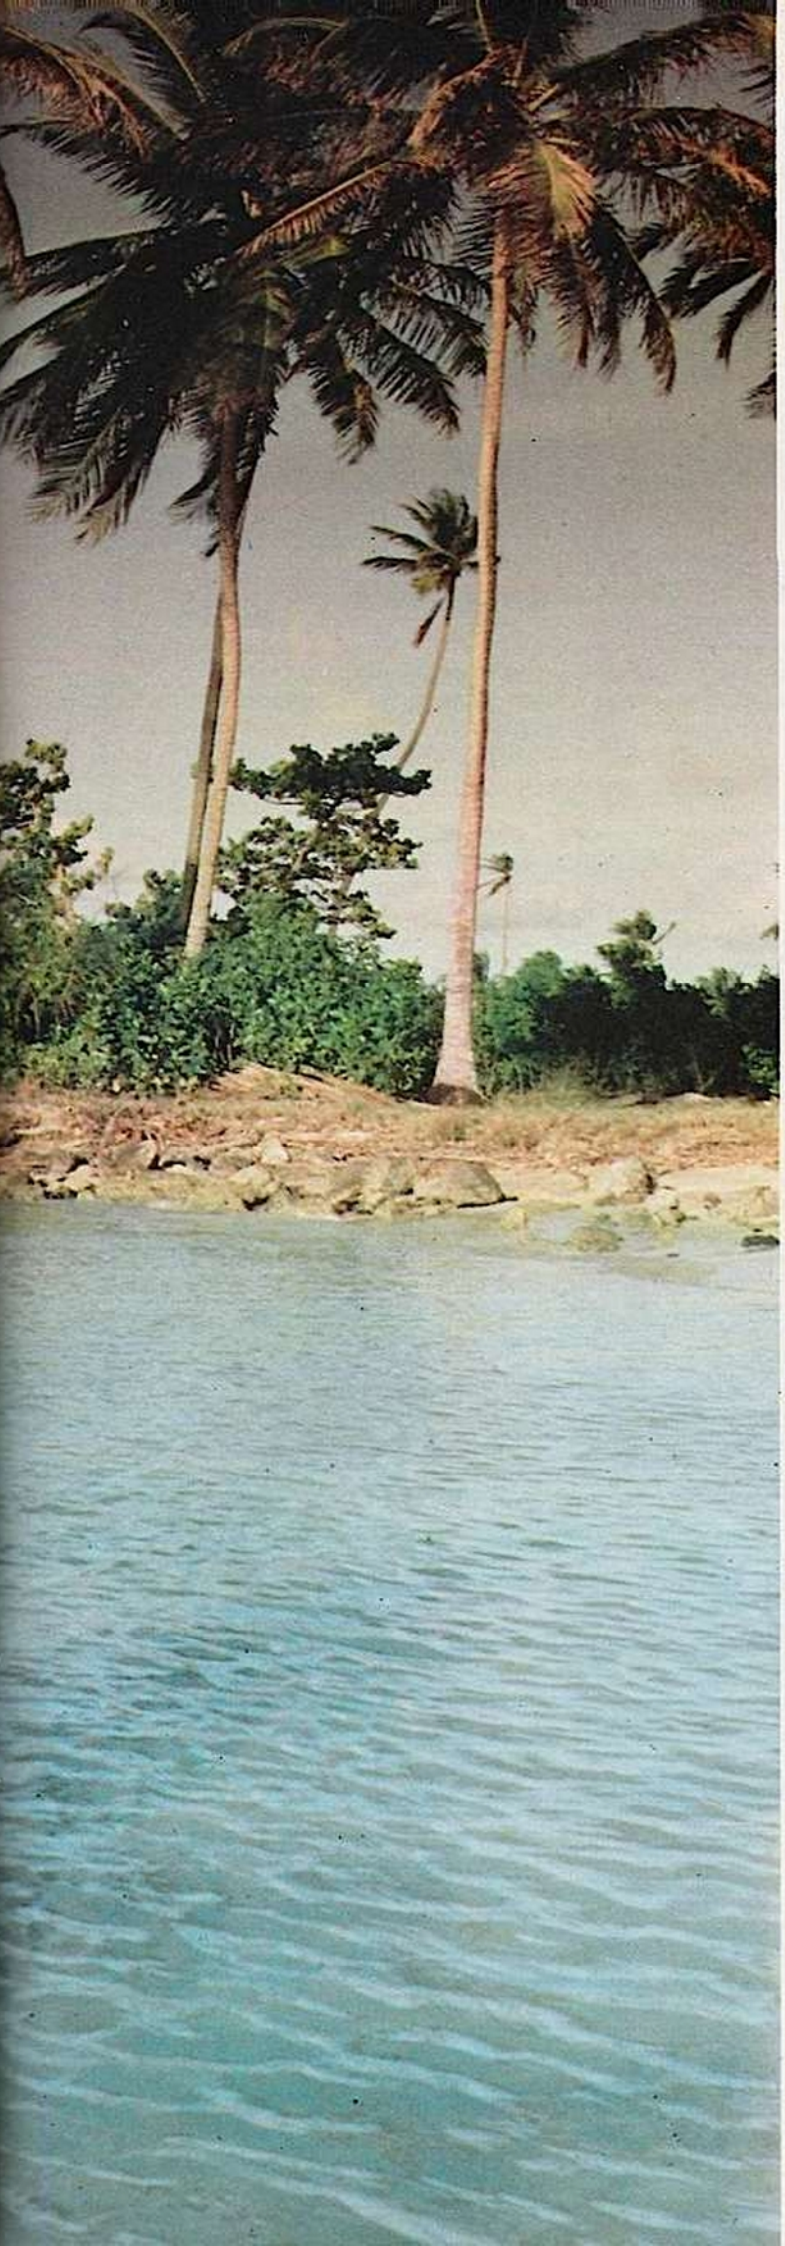
'I was only about seven years old at the time, but the sights, sounds and smells still linger with me to this day.

'Now, of course, I can go down to the beach any time I like. But it still has that old fascination. I could literally sit for a whole day, just watching the waves roll relentlessly up the beach, listening to that amazing noise they make.

'I have a beach-house here for when I'm on holiday. It has a terrific view from the front, and I have my bed in that room. There's a huge window, so I can lie in bed and watch the sea come crashing in like at the movies.

'Of course, it's always nice to have someone in bed with





you, and I find it really soothing to have the sound of the sea outside while you're inside with someone to comfort you and keep you warm and insulated from the outside pandemonium.

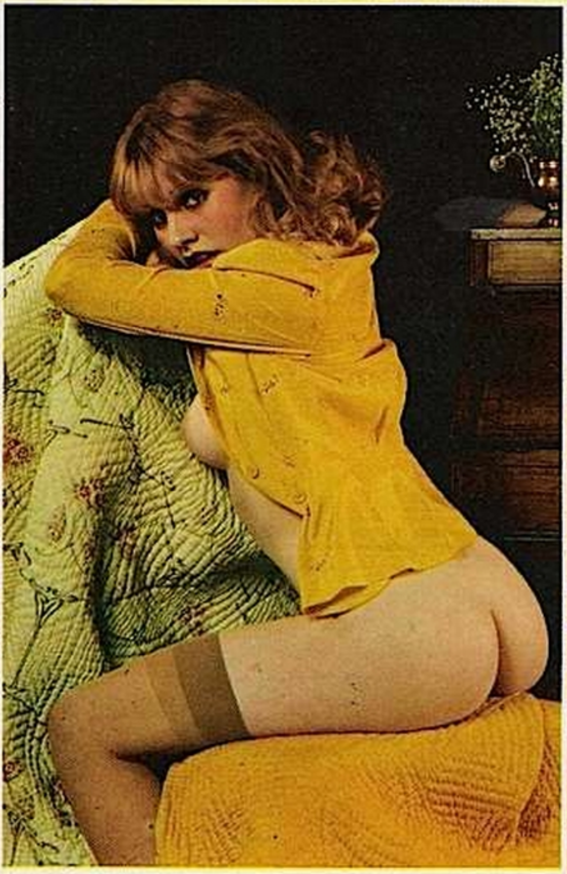
'Sex is always better with some kind of background sound, and with my love of the sea, it's not surprising that I prefer fucking at the beach house, much to the delight of my guests.'♣

Sheka

Photographs by Adam Cole

'Do you think you could send me a copy of the magazine when it comes out?' Sheka asked us.

'It's just that my current boyfriend has a collection of erotica which he's been amassing over the past few years and it would be nice for him to have something to remind him of me.



'He often reads me passages from some of his books as a prelude to making love and I find that very sexy. It's not pornography, though, it's really tender and loving—erotic.' ♣
